

**AGREEMENT OF SERVICES**

Here at Capstone Medical Associates we believe in treating the underlying issue of Erectile Dysfunction with regenerative medicine. Pulsewave therapy creates micro trauma to the tissue stimulating your body's own healing response, increasing healthy blood supply sending growth factors, and creating new blood vessels to the area treated. We combine Pulsewave with PRP (Platelet Rich Plasma) in order to add a high concentration of growth factors that work synergistically. By treating Erectile Dysfunction patients with regenerative medicine, we can best restore patients to their younger, healthier selves for sexual activity.

Initial consultation with Dr. Backenstoos will be at no charge. The total cost for Pulsewave Therapy is \$3200.00, which is not covered by insurance.

**Procedure:** Pulsewave Therapy
